Inventor Charles Krumme is currently seeking a qualified company to manufacture and distribute the *Ratchet Strap Alarm System* under a licensing agreement. This innovative product features an alarm that attaches to cargo straps and immediately alerts should those straps become loose. Cargo straps that fail are responsible for one out of every six tractor trailer accidents in the U.S.; that's over 22,000 incidents a year of damaged products, vehicles, and lives. The *Ratchet Strap Alarm System* can prevent these catastrophes as well as theft! The *Ratchet Strap Alarm System* is sure to have worldwide appeal and be a profitable addition to your product line. Please visit our website for more information.
